

SHASHANK SUNDAR

Senior Delivery Lead | Agile Delivery | Digital Transformation

Chennai, India | Open to relocation to the UK | Require UK Skilled Worker visa sponsorship
sundarshashank@gmail.com | linkedin.com/in/shashank2301

PROFESSIONAL SUMMARY

Technical delivery professional with **6+ years' experience** delivering digital products, software solutions and digital transformation initiatives for international clients across the USA, UK, Canada and Japan. Experienced in **end-to-end delivery**, leading multidisciplinary teams through discovery, requirements, solution design, development, testing, UAT, deployment and continuous improvement.

Currently lead **10+ member technical teams** and act as a **Scrum Master**, facilitating Agile ceremonies, managing Jira backlogs, coordinating dependencies, resolving blockers and supporting delivery planning. Strong client-facing experience across delivery governance, risk management, stakeholder engagement, resource planning, UAT and release coordination.

Combine technical depth with business analysis and commercial delivery experience, including **tenders, Statements of Work, pricing, MSAs, Work Orders, Purchase Orders and resource planning**. Delivered **15+ enterprise digital solutions supporting 200+ users**, achieving approximately **40–70% reductions in manual effort** across targeted processes.

CORE SKILLS

Delivery & Agile: End-to-End Delivery | Agile | Scrum | Scrum Master | Delivery Planning | Delivery Forecasting | Delivery Reporting | Delivery Assurance | Risk & Dependency Management | Blocker Resolution | Release Management | Continuous Improvement

Teams & Stakeholders: Multidisciplinary Teams | Cross-Functional Collaboration | Client Management | Senior Stakeholder Management | Facilitation | Coaching & Mentoring | Conflict Resolution | Negotiation | Workshop Facilitation

Product & Analysis: Digital Products | User Needs | Business Value | Requirements Analysis | Backlog Management | Prioritisation | User Journeys | Process Analysis | Acceptance Criteria | Solution Design | UAT

Commercial: Tenders | Statements of Work | Pricing & Costing | Resource Planning | MSAs | Work Orders | Purchase Orders | Project Reporting

Tools & Technology: Jira | Azure DevOps | Power Platform | Power Apps | Power Automate | Power BI | Dataverse | SharePoint | SQL | REST APIs | RPA | AI Builder | Copilot Studio

PROFESSIONAL EXPERIENCE

SALEM INFOTECH PVT. LTD. | Chennai, India

Technical Delivery / Business Analyst | Jul 2022 – Present

- Lead **10+ member multidisciplinary technical teams** across discovery, requirements, solution design, development, testing, UAT, deployment, operational readiness and continuous improvement.
- Act as **Scrum Master**, facilitating sprint planning, daily stand-ups, sprint reviews and retrospectives while supporting blocker removal and delivery momentum.
- Create and manage **Jira projects, boards, workflows, backlogs, epics, user stories and tasks**, providing visibility of priorities, progress, dependencies and delivery status.
- Use **Jira and Azure DevOps** to manage requirements, defects, testing, changes, releases and delivery governance across development and production.
- Lead **30+ stakeholder and requirements workshops** with clients and business stakeholders across the USA, UK, Canada and Japan, aligning requirements, priorities and delivery expectations.
- Translate business and user needs into **BRDs, functional requirements, user journeys, process flows, solution specifications and acceptance criteria**.
- Support backlog development and prioritisation by assessing **business value, user needs, technical feasibility, effort, dependencies and delivery impact**.

- Coordinate developers, analysts, testers and technical stakeholders, proactively identifying and resolving **risks, impediments, dependencies, scope changes and resource constraints**.
- Lead **UAT and stakeholder validation**, coordinating test scenarios, acceptance criteria, defect resolution, feedback and production readiness.
- Adapt delivery approaches across **Agile and hybrid Agile/Waterfall environments**, tailoring delivery practices to project and client needs.
- Support delivery planning and forecasting through **effort assessment, costing and resource planning**, and prepare tenders, SOWs, pricing documents, MSAs, Work Orders, POs and project reports.
- Use **Power BI and operational metrics** to support evidence-based improvement, contributing to approximately **40–70% reductions in manual effort** and reducing selected reporting activities from days to under one hour.
- Delivered **15+ enterprise digital solutions supporting 200+ users** across business applications, workflow automation, reporting and RPA.
- Support technical delivery across **Power Apps, Power Automate, Dataverse, SharePoint, SQL, REST APIs, RPA and AI-enabled solutions**.

GMS PVT. LTD. | Chennai, India

Digital Solutions / Business and Systems Analysis – Contract | Apr 2020 – Mar 2022

- Analysed **business and user needs** and translated them into functional requirements, workflows and digital solution designs.
- Worked with stakeholders to understand **user journeys, pain points and operational challenges**, identifying opportunities for process improvement and digital transformation.
- Supported solution discovery, functional design, development coordination, testing and implementation.
- Produced **BRDs, functional specifications, process flows and application documentation**, incorporating stakeholder feedback into iterative improvements.
- Applied UX design experience to support **user-centred solution design and usability**.
